

Ergonomic, reliable, and high performance

Electrolux professionals, by taking care of every little detail, have dedicated themselves to provide you with safe and worry-free machines.

Designed for you

The new soft-grip door handle design fits your hand perfectly with a Slip-lock door handle - for safe and trouble free operation in any demanding environment. The handle simply turns freely if someone tries to open during the wash cycle.

Designed to improve your grip: large and clear display with icons and a single knob to operate. It couldn't be easier!

Built to last

Parts subject to high stress are designed to be durable, guaranteeing cost-efficient management.

Riveted technology, taken from aerospace, guarantees durable and rust-free joints.

Automatic Weighing System (AWS)

To give savings on utility costs, AWS is the automatic system that calculates the right amount of water based on load weight. With each wash cycle, AWS automatically determines the weight of the load and adds precisely the right amount of water resulting in reduced water consumption and energy costs. The AWS is a software program built into the wash cycle and is available on Compass Control®.

Example: 35% water savings at half load
