## Prodigy® Cube Ice Machines up to 736 kg

### Features

Prodigy® cubers use **significantly less energy and water** than other cube ice machines, exceeding energy efficiency regulations.

**AutoAlert™ indicator lights** constantly communicate about operating status and actually signal your staff when it's time to descale, sanitize, and more - making upkeep practically foolproof.

The patented **WaterSense adaptive purge control** delivers maximum reliability by reducing scale buildup for a longer time between cleanings.

**Preventative maintenance is simpler** than ever with easily-removed panels allowing clear access to internal components and a diagnostic code display insuring the right fix the first time. Reusable air filter is easily removable from the outside.

All external panel components are crafted for **optimal aesthetic appeal** through superior fit and finish.

An optional **advanced feature Smart-Board™** provides additional operational data that can be displayed on-screen or transmitted remotely, resulting in early alert and fast diagnosis of operating issues.

An optional **Vari-Smart™ ultrasonic ice level control** sensor allows you flexibility to program ice levels, for up to 7 days, keeping just the right amount of freshly made ice in the bin.
