

IX CAFE

IX WATER

ECO FILTRATION

INTRODUCING **IX CAFE**

BETTER WATER FOR COFFEE

Enhance your coffee with IX Café. Barista-optimised filtration dialled in for ultimate taste and aroma, unsurpassed environmental credentials and built-in machine protection from the harmful effects of water.

INTRODUCING **IX CAFE**

We've been designing water treatment for coffee since 2008 and we know how important optimised water is to a quality cup of coffee. The IX has been engineered to be the best water cartridge solutions for cafes and roasters whilst still boasting industry leading environmental credentials.

SPEC SHEET

MODEL	CAPACITY*	DIMENSIONS (mm)
Small	1,814 Litres	317 High X 167 Dia
Medium	3,120 Litres	406 High X 167 Dia
Large	5,733 Litres	580 High X 167 Dia

* This capacity is based on influent water hardness of 180 ppm with bypass settings 3.

- Working pressure 1.5 - 6 Bar**
- Water inlet temperature 4 - 30°C
- Only connect to a cold Food-Safe water supply
- Flowrate - 4 litres per minute

** A pressure-reducing valve is recommended if the working pressure is greater than 3.5 bar.

THE IX HEAD

With the multi-stage variable bypass (5 options), you can tailor and control the product water to the required mineral level.

Features a 5-stage filtration process that includes: Prefiltration, Silver Activated Carbon, sediment reduction, Media specific water treatment, Fine filtration.

Operates in a vertical or horizontal position

The iX Head has a built in easy to use flush valve and quick to change variable bypass.

WE'RE REGENERATING THE MANGROVES

NATURE'S **CARBON** FILTER

The mangroves are vital to tropical ecosystems and serve as nature's coastal carbon sinks. Between the land and ocean, they protect beaches, enrich marine life and capture 5-10 times more carbon than terrestrial forests. We're helping rebuild mangroves throughout Asia and Latin America with our commitment with Tree App.

ONE TREE **PLANTED** FOR EVERY FILTER RECYCLED

Support the mission and help the planet. For each filter you purchase, we're planting a tree with One Tree Planted – making a difference, one filter at a time.

WE'RE **FIXING** WATER

OUR INDUSTRY LEADING UK RECYCLING PROGRAMME

We are now able to recycle and re-purpose ALL types of plastic and aluminium water filters using our newly operational recycling facility in the United Kingdom.

RECYCLING & REGENERATION

We've optimised every component and stage of the water filtration process. An unprecedented 98% of an IX filter can be re-used or recycled – including the resins which are infinitely rechargeable.

We have created robust processes to get used water filters, including other manufacturer's filters, back to us for reprocessing and to give the plastic and resin a new life as a brand new product
