

QFSINK Quick Fit Heated Sink

The Quick Fit Heated Sink is an innovative and flexible unit designed for ease of use in event catering or in permanent kitchens. The QFSINK uses a standard $\frac{3}{4}$ BSP connection and the supplied water heater works off a 13 amp plug, making the unit easy to install and disconnect.

'Made in Britain' the QFSINK comes in any size from 1000mm to 2400mm, along with adjustable feet, a bottom shelf for storage and taps to suit your kitchen.
